TECHNICAL INFORMATION

Color	Olive Green
Odor	Odorless
pH	≤1
State	Liquid
DOT	Hazardous (Hydrofluoric Acid, Sulfuric Acid)

Rust Pro is a high quality, heavy duty acid cleaner specially designed for rust removal from concrete, masonry, wood and other hard surfaces. Rust Pro will remove rust stains created by sprinkler systems, railings or other exterior steel structures. It will also remove red clay stains, yellow boat bottom stains, organic stains from berries and trees, and battery rust.

DIRECTIONS FOR USE:

For best results, use Rust Pro at full strength. Soak the stained area with product and allow to sit for 2-3 minutes. If the rust stain is on wood, allow this product to fully penetrate the wood. Rinse the surface thoroughly with a pressure washer. For the deepest and most stubborn stains, repeat this process until the stain is removed. Rust Pro is a professional grade product.
